

## Web Resources – UofT Developers

The following are some highly useful links that will help in absorbing both the lecture material and in learning on your own.

### *Basics*

**Codecademy Web Fundamentals Track:** <http://www.codecademy.com/tracks/web>

This set of lessons is a fairly comprehensive introduction to HTML and CSS.

**Codecademy JavaScript Track:** <http://www.codecademy.com/tracks/javascript>

This is a pretty good introduction to the JavaScript language, assumes little-to-no programming background

**Beginner's Guide to HTML & CSS:** <http://learn.shayhowe.com/html-css/>

Great introduction to web

### *Intermediate*

**Codecademy jQuery Track:** <http://www.codecademy.com/tracks/jquery>

Introduction to the jQuery javascript library + dynamic HTML

**Codecademy Projects:** <http://www.codecademy.com/tracks/projects>

Looking for something to test your skills? Try these.

**Advanced HTML + CSS:** <http://learn.shayhowe.com/html-css/>

Pretty useful stuff

### *Reference Materials*

**W3Schools:** <http://www.w3schools.com/>

Good for looking up stuff about JS/HTML/CSS
